The Nordic Maritime Forum 2024 will happen in Oslo

May 3, 2024

Copyright Alexander/AdobeStock

In the heart of maritime excellence in **Oslo, Norway**, the stage is set for the **Nordic Maritime Forum 2024** to bring together industry leaders, ranging from shipowners, ship managers, ports, regulators, and classification societies to technology companies and suppliers, for two days of dynamic discourse and collaboration. With dates fixed for June 18th and 19th, this eagerly anticipated event will serve as a foundational platform for delving into the key themes shaping the maritime industry toward a future marked by sustainability and technological advancement.

Director Technical Management, Saltchuk Marine

Topics

Global Maritime Sector:
Today / 2030 / 2050

- Overview of the current market situation in the maritime sector;
- Decarbonisation and sustainability in the offshore industry;
- Fresh overview of the implementation process of IMO regulations;
- Safety in the offshore industry;
- Enforcement of the existing regulations;
- Update on the maritime policies in the United States;
- Forecast 2030/2050;
- Global shipping trends and opportunities in the Arctic;
- Regional, national and international environmental projects and initiatives: best practices;

Getting To Zero Emissions

- Greenhouse gas regulations – where are we headed?;
- LNG as a marine fuel;
- Alternative fuels;
- Combination of fuels;
- Ship propulsion power – how to supply the consumption?;
- Power of collaboration;
- EEXI and CII;

Challenges And Opportunities For The Cruise Industry

- Latest Tendencies in F&B Segment;
- Smart, Efficient and Cost-effective Hotel;
- Expectations and Requirements for the Cruise Ship Supplier;
- Making an Efficient and Compliant Fleet;
- Main Criteria for Choosing the Destination Port;
- Creating Captivating Experiences for the Guests;
- Lastest updates and inovations in ships interior segment;
- Latest ships interior solutions;
- Ships refurbishment practices;

Smart, Efficient And Compliant Ship

- Focus on scrubbers;
- Effective propulsion technologies;
- BWTS: Challenges while compliying;
- MRV and DCS and the decarbonization journey;
- Solutions for effective fleet performance management;
- General maintenance, cleaning and disinfection solutions;

Safety And Wellbeing Of The Crew

- Mental health matters – what's your strategy?;
- Safety of the crew – latest trends and biggest issues;
- Crew training – latest methods and technologies in this field;

Cybership: Improve Vessels With The Latest Technology

- Autonomous and remotely operated ships;
- Maritime simulators;
- Latest electronics, IT, AI, cyber security solutions;
- Implementation of blockchain technology in maritime

Ship Design / Build / Retrofit / Repair

- Latest innovations in shipbuilding sector;
- Ship design of the future;
- Improvements in hull design;
- Ensuring safe and timely supplies: spare parts, provision, etc.;
- Retrofitting, repairing and recycling a ship.
